**EPA is Accepting PUBLIC COMMENTS
on a cleanup plan for the
Johns Manville Superfund Site
in Waukegan, Ill.**

Public Comment Period: Feb. 10 – March 12, 2012
Open House: Wed., Feb. 22, 2012 from 2 p.m. – 6:30 p.m.

The U.S. Environmental Protection Agency plans to clean up four areas contaminated with asbestos next to the Johns Manville and Commonwealth Edison properties in Waukegan. These four locations are referred to in the cleanup plan as the Johns Manville Southwestern Site Area. The purpose of the cleanup is to eliminate the potential for releases of asbestos fibers and to prevent people's direct contact with asbestos-containing material, known as ACM.

PUBLIC COMMENTS on the cleanup alternatives may be submitted in writing between Feb. 10 and March 12, 2012 to: Mike Joyce, Community Involvement Coordinator, EPA (SI-7J), 77 W. Jackson Blvd., Chicago, IL 60604, or by fax at 312-385-5531 or via the Internet at www.epa.gov/region5/cleanup/jmanville/pubcomment.html.

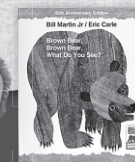

Also, EPA will host an **OPEN HOUSE** from 2 p.m. – 6:30 p.m., **Wednesday, Feb. 22, 2012**, Lilac Cottage in Bowen Park, 1911 N. Sheridan Rd., Waukegan. EPA's project manager will be available to answer questions about the project and written or oral comments will be accepted.

EPA's recommendations include:

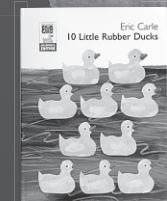

- Remove and dispose of asbestos-contaminated soil.
- Install vegetated soil barriers in contaminated areas.
- Create clean corridors for underground utilities.

Copies of the engineering evaluation and cost analysis and other site-related documents are available for review at the Waukegan Public Library, 128 N. County St. (ask for access at the reference desk), and at EPA's Records Center, 77 W. Jackson Blvd. (seventh floor), Chicago; and at this web address: www.epa.gov/region5/cleanup/jmanville.
